A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2023

Management Discussion of Fund Performance

June 5, 2023

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the performance and outlook of Canada Life Canadian Fixed Income Balanced Fund II (the "Fund") in the financial year ended March 31, 2023 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "CLIML" and "the Manager" refer to Canada Life Investment Management Ltd., which is wholly owned by The Canada Life Assurance Company ("Canada Life"). The Manager has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of the Manager and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read A Note on Forward-Looking Statements on the first page of this document.

All series of the Fund are closed to new investments, except for purchases from investors that held securities of the Fund as of September 9, 2020, and continue to hold these securities.

Investment Objective and Strategies

The Fund seeks income and moderate capital growth by investing primarily in Canadian fixed income securities and, to a lesser extent, in Canadian equities. It may hold up to 40% of its assets in foreign investments. The Fund's asset mix will generally range between 10%-40% equity securities and 60%-90% fixed income securities, including cash and cash equivalents.

Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for medium-term investors looking for a Canadian balanced fund to hold as part of their portfolio, who can handle the volatility of stock and bond markets, and who have a low tolerance for risk.

Results of Operations

Investment Performance

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's A Series securities returned -3.8% (after deducting fees and expenses paid by the series). This compares with a return of -2.8% for the Fund's blended index, which is composed of a 70% weighting in the Fund's broad-based index, the FTSE Canada Universe Bond Index (returned -2.0%), and a 30% weighting in the S&P/TSX Composite Index (returned -5.2%). All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Canadian equities fell over the period, driven lower by rising interest rates and volatile commodity prices. Energy prices were relatively high, bolstered by the Russia–Ukraine war. Employment remained strong, and resilient consumer spending supported consumer discretionary and consumer staples stocks. In response to persistently high inflation, the Bank of Canada raised its policy rate by 400 basis points, to 4.50% from 0.50%. As a result, Canadian government and corporate bond yields increased significantly.

Within the S&P/TSX Composite Index, consumer staples, consumer discretionary and industrials were the strongest sectors, while health care, real estate and financials were the weakest.

The Fund underperformed the broad-based index because of its allocation to Canadian equities, which underperformed Canadian fixed income in the period. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index, with the fixed income portfolio underperforming the fixed income portion of the blended index. Conversely, the Fund's cash position contributed to performance as markets declined.

Within the fixed income portion of the Fund, security selection among federal bonds and among energy, industrial and communication sector corporate bonds detracted from performance. Conversely, holdings in term loans contributed to performance. Government bond futures, which were held to manage duration, also contributed to performance.

Within the equity portion of the Fund, stock selection in the consumer staples sector detracted from performance. Conversely, an underweight position in information technology contributed to performance. In geographic terms, holdings in the United States contributed to performance.

Over the period, changes were made to the Fund's portfolio in conjunction with the change in its investment strategies (see *Recent Developments*). Exposure to the United States increased, while exposure to Canada decreased. Within the equity portion of the Fund, exposure to the financials sector decreased.

Net Assets

The Fund's net assets decreased by 19.7% during the period to \$145.7 million. This change was composed primarily of \$6.9 million in net losses (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$28.8 million due to net securityholder activity (including sales, redemptions and cash distributions).

Fees and Expenses

The management expense ratio ("MER") for each series during the year ended March 31, 2023, was generally similar to the MER for the year ended March 31, 2022. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for F Series, F5 Series, QF Series, QF5 Series, QFW Series and QFW5 Series decreased due to a decrease in the management fee rates effective April 25, 2022, as noted in the *Fund Formation and Series Information* section of the report. The MERs for all series are presented in the *Financial Highlights* section of this report.

Recent Developments

The following changes were effective April 25, 2022:

- the Fund was renamed Canada Life Canadian Fixed Income Balanced Fund II;
- the annual management fee rate for F Series and F5 Series was reduced to 0.80% from 0.95%; the rate for QF Series and QF5 Series was reduced to 0.75% from 0.95%; and the rate for QFW Series, QFW5 Series, FW Series and FW5 Series was reduced to 0.60% from 0.65%; and

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2023

 the Fund's Investment Objective and Strategies were changed to the following: "The Fund seeks income and moderate capital growth by investing primarily in Canadian fixed income securities and, to a lesser extent, in Canadian equities. It may hold up to 40% of its assets in foreign investments. The Fund's asset mix will generally range between 10%-40% equities and 60%-90% fixed income securities, including cash and cash equivalents."

Effective July 22, 2022, the annual management fee rate for F Series and F5 Series was reduced to 0.60% from 0.80%.

Effective July 22, 2022, the minimum initial investment amount for each of the high net worth series (N Series, N5 Series, N8 Series, QFW Series, QFW5 Series, W Series, W5 Series and W8 Series, as applicable) was reduced from \$100,000 to \$500 to align with the minimum initial investment amount for all retail series. The \$500,000 minimum total holdings amount for high net worth series was unchanged.

Effective July 22, 2022, the management fee rate reduction program for F Series, F5 Series and F8 Series was eliminated for total holdings between \$100,000 and \$499,999 due to the lowering of management fee rates for these series. A new management fee rate reduction program was implemented for F Series, F5 Series, F8 Series, QFW Series, QFW5 Series, W Series, W5 Series and W8 Series (as applicable) based on an investor's total holdings above \$2.5 million, at the following rates: 0.05% (\$2,500,000 to \$4,999,999); 0.10% (\$5,000,000 to \$9,999,999); and 0.15% (\$10,000,000 or higher).

Effective September 16, 2022, FW Series and FW5 Series were redesignated as F Series and F5 Series, respectively.

Effective March 31, 2023, KPMG LLP was appointed as the auditor of the Fund.

Related Party Transactions

Management and Administration Services

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Prospectus. The Manager paid the administration fees to Mackenzie for providing day-to-day administration services, including financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations and processing orders for securities of the Fund. In return for the administration fees, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. See also *Management Fees*.

Other Related Party Transactions

The Manager is wholly owned by Canada Life, which in turn is a subsidiary of Power Corp. of Canada. Companies related to Power Corp. of Canada are therefore considered affiliates of the Manager. At March 31, 2023, the Fund held the following investment(s) in companies affiliated with the Manager: \$0.3 million invested in securities issued by Power Corp. of Canada and \$0.1 million invested in securities issued by Pernod Ricard SA. The investment(s) represented 0.3% of the Fund's NAV. In making the investment(s), the Manager relied on the approval of the Canada Life Funds' Independent Review Committee. The Independent Review Committee issued the approval on the basis that the investment(s) would be made in compliance with the Manager's policies. The Manager's policies are designed to ensure that any related party transaction (i) is made free from any influence by an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

At March 31, 2023, the Fund had \$6.4 million (4.5% of the Fund's NAV) invested in underlying funds managed by Mackenzie. In making the investment(s), the Manager relied on a standing instruction from the Canada Life Funds' Independent Review Committee. The Manager's policies are designed to ensure that any related party transaction (i) is made free from any influence by an entity related to the Manager and without taking into account any considerations relevant to an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

Certain other investment funds managed by CLIML and segregated fund policies issued by Canada Life may invest in the Fund on a prospectus-exempt basis in accordance with the investment objectives of those funds. At March 31, 2023, these other investment funds and segregated funds owned 1.6% of the Fund's NAV. All related party transactions are based on the NAV per security on each transaction day. As a result of these investments, the Fund may be subject to large transaction risk as discussed in the Prospectus. CLIML manages this risk to reduce the possibility of any adverse effect on the Fund or on its investors, through such processes as requiring advance notice of large redemptions.

During the period, the Fund received \$0.01 million in income distributions from investments in exchange-traded funds ("ETFs") managed by Mackenzie to offset fees paid within those ETFs. There is no assurance that these distributions will continue in the future.

During the period, the Fund relied on standing instructions provided by the Canada Life Funds' Independent Review Committee for inter-fund trades that have occurred in the Fund.

The Manager relied on an approval provided by the Canada Life Funds' Independent Review Committee to appoint KPMG LLP as the auditor of the Fund, effective March 31, 2023.

Past Performance

The Fund's past performance information is presented in the following charts and table. It assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The charts and table do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any investor that would have reduced returns. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

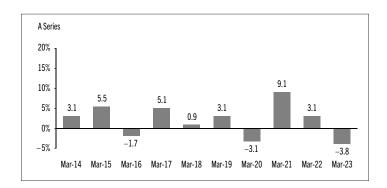

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

The blended index is composed of 70% FTSE Canada Universe Bond Index and 30% S&P/TSX Composite Index.

The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes federal, provincial, municipal and corporate bonds rated "BBB" or higher.

The S&P/TSX Composite Index is a capitalization weighted index that represents some of the largest float adjusted stocks trading on the Toronto Stock Exchange.

- (1) The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the blended index since inception for each applicable series is as follows: QF Series 3.0%, QF5 Series 3.0%, QFW Series 3.3%, QFW5 Series 3.3%.

(1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.

(2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.

(3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.

(4) Effective September 16, 2022, FW Series and FW5 Series were redesignated as F Series and F5 Series, respectively.

(1) This information is provided as at the end of the fiscal period shown.

- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.
- (5) Effective September 16, 2022, FW Series and FW5 Series were redesignated as F Series and F5 Series, respectively.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager in part to pay Mackenzie, an affiliate of the Manager, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

The Manager is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As the principal distributor for the Fund, Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of the Manager, is paid trailing commissions out of the management fees.

The Manager used approximately 37% of the total management fee revenues received from all Canada Life Mutual Funds during the period to fund distribution-related payments to Quadrus and Quadrus-authorized dealers. In comparison, such distribution-related payments for the Fund represented on average 27% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series.

W Series and W5 Series securities are offered to investors investing a minimum of \$500 and who have eligible minimum total holdings of \$500,000. Investors in W5 Series securities also want to receive a monthly cash flow of 5% per year.

Effective September 16, 2022, FW Series and FW5 Series securities were redesignated as F Series and F5 Series securities respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option,[†] a low-load purchase option[†] and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

[†] The redemption charge purchase option and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as preauthorized contribution plans. Switching from securities of a Canada Life Fund previously purchased under the redemption charge or low-load purchase options to securities of another Canada Life Fund, under the same purchase option, will continue to be available.
