#### A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates", "preliminary", "typical" and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Canada Life Investment Management Ltd. to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2024

## **Management Discussion of Fund Performance**

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the performance and outlook of Canada Life Global Growth and Income Fund (the "Fund") in the financial year ended March 31, 2024 (the "period"). If the Fund was established during the period, "period" represents the period since inception.

In this report, "CLIML" and "the Manager" refer to Canada Life Investment Management Ltd., which is wholly owned by The Canada Life Assurance Company ("Canada Life"). The Manager has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), an affiliate of the Manager and Canada Life, for administrative services. In addition, net asset value ("NAV") refers to the value of the Fund as calculated for transaction purposes, on which the discussion of Fund performance is based.

Please read A Note on Forward-Looking Statements on the first page of this document.

### **Investment Objective and Strategies**

The Fund seeks long-term capital growth and income by investing primarily in equities issued by companies around the world and Canadian fixed income and money market securities, directly, through other investment funds or through derivatives that provide exposure to such securities or investment funds. The Fund's asset mix will generally range between 40% to 70% equities and 30% to 60% fixed income securities. The Fund may hold up to 49% of its assets in foreign investments.

### Risk

The risks of the Fund remain as discussed in the Fund's Simplified Prospectus.

The Fund is suitable for long-term investors looking for a balanced fund to hold as part of their portfolio, who can handle the volatility of stock and bond markets, and who have a low to medium tolerance for risk.

### Results of Operations

#### **Investment Performance**

The performance of all series in the current and previous periods is shown in the *Past Performance* section of the report. Performance will vary by series primarily because fees and expenses differ between series, or because securities of a series were not issued and outstanding for the entire reporting period. Please refer to the *Fund Formation and Series Information* section of this report for the varying management and administration fees payable by each series. The following comparison to market indices is intended to help investors understand the Fund's performance relative to the general performance of the markets. However, the Fund's mandate may be different from that of the indices shown.

During the period, the Fund's A Series securities returned 9.2% (after deducting fees and expenses paid by the series). This compares with a return of 25.2% for the Fund's broad-based index, the MSCI World (Net) Index, and a return of 11.6% for a blended index.\* All index and series returns are calculated on a total return basis in Canadian dollar terms. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in the index returns.

Global equities rose over the period as central banks slowed the pace of interest rate increases. Canadian markets were supported by the energy sector, while gains in the U.S. equity market came largely from a small number of mega-capitalization stocks. The global economy was resilient, and employment remained strong. After

\* The blended index is composed of a 40% weighting in the FTSE Canada Universe Bond Index (returned 2.1%), a 30% weighting in the S&P/TSX Composite Index (returned 14.0%), a 15% weighting in the S&P 500 Index (returned 30.0%) and a 15% weighting in the MSCI EAFE (Net) Index (returned 15.3%).

July 2023, the U.S. Federal Reserve and the Bank of Canada held their policy rates steady. Treasury yields reached peak levels and then fell in response to the policy shift.

Within the S&P/TSX Composite Index, information technology, health care and energy were the strongest sectors, while communication services, utilities and materials were the weakest.

Within the S&P 500 Index, communication services, information technology and financials were the strongest sectors in Canadian dollar terms, while utilities, consumer staples and real estate were the weakest.

Within the MSCI EAFE (Net) Index, Italy, Denmark and Japan were the strongest-performing markets in Canadian dollar terms, while Hong Kong, Portugal and Finland were the weakest. The information technology, financials and industrials sectors were the strongest performers, while consumer staples, utilities and communication services were the weakest.

The following discussion reflects the Fund's allocation decisions and the activities and performance of its underlying investment funds and other directly held securities. The Fund underperformed the broad-based index because of its allocation to fixed income securities, which underperformed equities in the period. Given the Fund's mandate, the return of the blended index is a more meaningful comparison.

The Fund underperformed the blended index, with the equity portfolio underperforming the equity portion of the blended index.

Within the equity portion of the Fund, stock selection in Canada and underweight exposure to Japan detracted from performance. In sector terms, stock selection in financials and communication services detracted from performance. Conversely, overweight exposure to the United States and an overweight position and stock selection in Ireland contributed to performance, as did an underweight position and stock selection in the materials sector and stock selection in the industrials sector.

Within the fixed income portion of the Fund, a longer duration (higher sensitivity to interest rates) in government bonds, particularly provincial bonds, detracted from performance as interest rates rose. Conversely, overweight exposure to corporate bonds, particularly in the financial and energy sectors, contributed to performance.

Over the period, neither portfolio activity nor market developments significantly changed the positioning of the Fund. As a result of merger activity, the allocation to Canada Life U.S. Growth Fund was replaced by an allocation to Canada Life U.S. All Cap Growth Fund, and the allocation to Canada Life Canadian Focused Dividend Fund was replaced by an allocation to Canada Life Canadian Dividend Fund.

#### **Net Assets**

The Fund's net assets decreased by 7.6% during the period to \$214.4 million. This change was composed primarily of \$21.3 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and a decrease of \$39.0 million due to net securityholder activity (including sales, redemptions and cash distributions).

#### **Fees and Expenses**

The management expense ratio ("MER") for each series during the year ended March 31, 2024, was generally similar to the MER for the year ended March 31, 2023. Total expenses paid vary from period to period mainly as a result of changes in average assets in each series. The MERs for all series are presented in the *Financial Highlights* section of this report.

#### Recent Developments

There were no recent events or activities that had a material impact on the Fund.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Year Ended March 31, 2024

## Related Party Transactions

## **Management and Administration Services**

For each applicable series, the Fund paid management fees and administration fees to the Manager at the annual rates specified under *Fund Formation and Series Information* in this report and as more fully described in the Simplified Prospectus. In return for the administration fees, the Manager pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in management fees. Prior to January 1, 2024, the Manager paid the administration fees to Mackenzie for providing day-to-day administration services, including financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations and processing orders for securities of the Fund. See also *Management Fees*.

#### **Other Related Party Transactions**

The Manager is wholly owned by Canada Life, which in turn is a subsidiary of Power Corp. of Canada. Companies related to Power Corp. of Canada are therefore considered affiliates of the Manager. At March 31, 2024, the Fund held the following investment(s) in companies affiliated with the Manager: \$0.1 million invested in securities issued by Groupe Bruxelles Lambert SA. The investment(s) represented less than 0.1% of the Fund's NAV. In making the investment(s), the Manager relied on the approval of the Canada Life Funds' Independent Review Committee. The Independent Review Committee issued the approval on the basis that the investment(s) would be made in compliance with the Manager's policies. The Manager's policies are designed to ensure that any related party transaction (i) is made free from any influence by an entity related to the Manager and without taking into account any considerations relevant to an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the Fund; and (iii) achieves a fair and reasonable result for the Fund.

At March 31, 2024, Canada Life had an investment of 0.04 million in the Fund (less than 0.1% of the Fund's NAV).

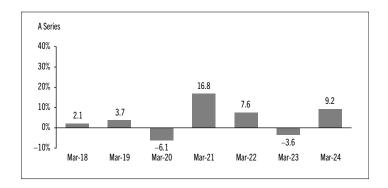

### **Past Performance**

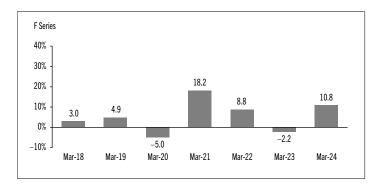

The Fund's performance information assumes all distributions made by the Fund in the periods presented are reinvested in additional securities of the relevant series of the Fund. The performance information does not take into account sales, redemption, distribution or other optional charges, or income taxes payable by any investor that would have reduced returns or performance. The past performance of the Fund is not necessarily an indication of how it will perform in the future.

If you hold this Fund outside of a registered plan, income and capital gains distributions paid to you increase your income for tax purposes whether paid to you in cash or reinvested in additional securities of the Fund. The amount of reinvested taxable distributions is added to the adjusted cost base of the securities that you own. This would decrease your capital gain or increase your capital loss when you later redeem from the Fund, thereby ensuring that you are not taxed on this amount again. Please consult your tax advisor regarding your personal tax situation.

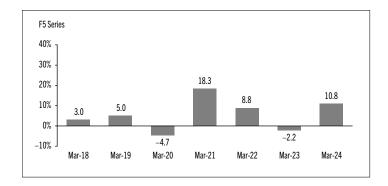

### Year-by-Year Returns

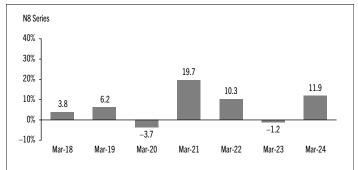

The following bar charts present the performance of each series of the Fund for each of the fiscal periods shown. The charts show, in percentage terms, how much an investment made on the first day of each fiscal period, or on the series inception or reinstatement date, as applicable, would have increased or decreased by the last day of the fiscal period presented. Series inception or reinstatement dates can be found under *Fund Formation and Series Information*.

## **Annual Compound Returns**

The following table compares the historical annual compound total returns for each series of the Fund with the relevant index or indices shown below for each of the periods ended March 31, 2024. Investors cannot invest in an index without incurring fees, expenses and commissions, which are not reflected in these performance figures.

All index returns are calculated in Canadian dollars on a total return basis, meaning that all dividend payments, interest income accruals and interest payments are reinvested.

#### \* Broad-based index

The blended index is composed of 40% FTSE Canada Universe Bond Index, 30% S&P/TSX Composite Index, 15% S&P 500 Index and 15% MSCI EAFE (Net) Index.

The MSCI World (Net) Index represents large- and mid-cap equity performance across 23 developed markets. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

The FTSE Canada Universe Bond Index is a broad measure of Canadian bonds with terms to maturity of more than one year. It includes federal, provincial, municipal and corporate bonds rated "BBB" or higher.

The S&P/TSX Composite Index is a capitalization weighted index that represents some of the largest float adjusted stocks trading on the Toronto Stock Exchange.

The S&P 500 Index is a market capitalization weighted index of 500 widely held securities, designed to measure broad U.S. equity performance.

The MSCI EAFE (Net) Index represents large- and mid-cap equity performance across 21 developed markets, excluding the United States and Canada. Net total returns are calculated after the deduction of withholding tax from the foreign income and dividends of its constituents.

- The percentage return differs for each series because the management fee rate and expenses differ for each series.
- (2) The return since inception for each series will differ when the inception date differs and is only provided when a series has been active for a period of less than 10 years.
- (3) The return of the blended index since inception for QFW Series and QFW5 Series is 6.4%, and for all other series is 6.6%.
- (4) The return of the MSCI World (Net) Index since inception for QFW Series and QFW5 Series is 11.0%, and for all other series is 11.8%.
- (5) The return of the FTSE Canada Universe Bond Index since inception for QFW Series and QFW5 Series is 1.3%, and for all other series is 1.1%.
- (6) The return of the S&P/TSX Composite Index since inception for QFW Series and QFW5 Series is 9.0%, and for all other series is 9.1%.
- (7) The return of the S&P 500 Index since inception for QFW Series and QFW5 Series is 14.0%, and for all other series is 15.1%.
- (8) The return of the MSCI EAFE (Net) Index since inception for QFW Series and QFW5 Series is 6.3%, and for all other series is 6.8%.

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per security. This information is derived from the Fund's audited annual financial statements. The net assets per security presented in the financial statements may differ from the net asset value per security calculated for fund pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of securities outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of securities outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional securities of the Fund, or both.
- (4) Effective September 16, 2022, FW Series, FW5 Series and FW8 Series were redesignated as F Series, F5 Series and F8 Series, respectively.

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. In the period a series is established, the MER is annualized from the date of inception to the end of the period. Where the Fund directly invests in securities of another fund (including exchange-traded funds or "ETFs"), the MERs presented for the Fund include the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by affiliates of the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs incurred as an annualized percentage of daily average net assets during the period. Where the Fund invests in securities of another fund (including ETFs), the TERs presented for the Fund include the portion of TERs of the other fund(s) attributable to this investment.
- (4) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher the Fund's portfolio turnover rate in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund. The portfolio turnover rate is not provided when the Fund is less than one year old. The value of any trades to realign the Fund's portfolio after a fund merger, if any, is excluded from the portfolio turnover rate.
- (5) Effective September 16, 2022, FW Series, FW5 Series and FW8 Series were redesignated as F Series, F5 Series and F8 Series, respectively.

## **Management Fees**

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The Fund's management fees were used by the Manager in part to pay Mackenzie and Setanta Asset Management Ltd., affiliates of the Manager, for investment advisory services, including managing the investment portfolio of the Fund and/or the underlying fund(s), as applicable, including providing investment analysis and recommendations, making investment decisions and making brokerage arrangements for the purchase and sale of the investment portfolio.

The Manager is responsible for paying certain administrative costs and all sales commissions, trailing commissions and any other compensation (collectively, "distribution-related payments") to registered dealers whose clients invest in the Fund. As the principal distributor for the Fund, Quadrus Investment Services Ltd. ("Quadrus"), an affiliate of the Manager, is paid trailing commissions out of the management fees.

The Manager used approximately 38% of the total management fee revenues received from all Canada Life Mutual Funds during the period to fund distribution-related payments to Quadrus and Quadrus-authorized dealers. In comparison, such distribution-related payments for the Fund represented on average 40% of the management fees paid by all applicable series of the Fund during the period. The actual percentage for each series may be higher or lower than the average depending on the level of trailing commissions and sales commissions paid for that series. The higher proportion of distribution-related payments is primarily attributable to sales commissions related to gross sales of redemption charge securities of the Fund.

### **Fund Formation and Series Information**

The Fund may have undergone a number of changes, such as a reorganization or a change in manager, mandate or name. A history of the major changes affecting the Fund in the last 10 years can be found in the Fund's Simplified Prospectus.

Date of Formation: June 28, 2017

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed under Financial Highlights.

A Series, T5 Series and T8 Series securities are offered to investors investing a minimum of \$500. Investors in T5 Series and T8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

F Series, F5 Series and F8 Series securities are offered to investors investing a minimum of \$500, who are enrolled in a Quadrus-sponsored fee-for-service or wrap program and who are subject to an asset-based fee. Investors in F5 Series and F8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

N Series, N5 Series and N8 Series securities are offered to investors investing a minimum of \$500, who have eligible minimum total holdings of \$500,000, and who have entered into an N Series Account Agreement with CLIML and Quadrus. Investors in N5 Series and N8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

QF Series and QF5 Series securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor. Investors in QF5 Series securities also want to receive a monthly cash flow of 5% per year.

QFW Series and QFW5 Series securities are offered to high net worth investors investing a minimum of \$500 and who have eligible minimum total holdings of \$500,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their financial advisor. Investors in QFW5 Series securities also want to receive a monthly cash flow of 5% per year.

W Series, W5 Series and W8 Series securities are offered to investors investing a minimum of \$500 and who have eligible minimum total holdings of \$500,000. Investors in W5 Series and W8 Series securities also want to receive a monthly cash flow of 5% or 8% per year, respectively.

Effective September 16, 2022, FW Series, FW5 Series and FW8 Series securities were redesignated as F Series, F5 Series and F8 Series securities respectively.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option,<sup>†</sup> a low-load purchase option<sup>†</sup> and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

The redemption charge purchase option and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as preauthorized contribution plans. Switching from securities of a Canada Life Fund previously purchased under the redemption charge or low-load purchase options to securities of another Canada Life Fund, under the same purchase option, will continue to be available.
