

CANADA LIFE MONEY MARKET FUND

Interim Unaudited Financial Statements

For the Six-Month Period Ended September 30, 2024

These Interim Unaudited Financial Statements do not contain the Interim Management Report of Fund Performance (“MRFP”) of the investment fund. You may obtain a copy of the Interim MRFP, at no cost, by calling 1-844-730-1633, by writing us at 255 Dufferin Ave., London, Ontario, N6A 4K1 or by visiting our website at www.canadalifeinvest.ca or by visiting the SEDAR+ website at www.sedarplus.ca. Copies of the Annual Financial Statements or Annual MRFP may also be obtained, at no cost, using any of the methods outlined above.

Securityholders may also contact us using one of these methods to request a copy of the investment fund’s proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

NOTICE OF NO AUDITOR REVIEW OF THE INTERIM FINANCIAL STATEMENTS

Canada Life Investment Management Ltd., the Manager of the Canada Life Money Market Fund (the “Fund”), appoints independent auditors to audit the Fund’s Annual Financial Statements. Under Canadian securities laws (National Instrument 81-106), if an auditor has not reviewed the Interim Financial Statements, this must be disclosed in an accompanying notice.

The Fund’s independent auditors have not performed a review of these Interim Financial Statements in accordance with standards established by the Chartered Professional Accountants of Canada.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

1. Fiscal Periods and General Information

The information provided in these financial statements and notes thereto is for the six-month periods ended or as at September 30, 2024 and 2023, except for the comparative information presented in the Statements of Financial Position and notes thereto, which is as at March 31, 2024. In the year a Fund or series is established or reinstated, 'period' represents the period from inception or reinstatement. Where a series of a Fund was terminated during either period, the information for the series is provided up to close of business on the termination date. Refer to Note 10 (a) for the formation date of the Fund and the inception date of each series.

The Fund is organized as an open-ended mutual fund trust established under the laws of the Province of Ontario pursuant to a Declaration of Trust as amended and restated from time to time. The address of the Fund's registered office is 255 Dufferin Avenue, London, Ontario, Canada. The Fund is authorized to issue an unlimited number of units (referred to as "security" or "securities") of multiple series. Series of the Fund are available for sale under Simplified Prospectus or exempt distribution options.

Canada Life Investment Management Ltd. ("CLIML") is the manager of the Fund and is wholly owned by The Canada Life Assurance Company ("Canada Life"), a subsidiary of Power Corporation of Canada. CLIML has entered into a fund administration agreement with Mackenzie Financial Corporation ("Mackenzie"), a subsidiary of Power Corporation of Canada. Investments in companies within the Power Group of companies held by the Fund are identified in the Schedule of Investments.

2. Basis of Preparation and Presentation

These unaudited interim financial statements ("financial statements") have been prepared in accordance with IFRS Accounting Standards ("IFRS"), including International Accounting Standard ("IAS") 34, *Interim Financial Reporting*, as issued by the International Accounting Standards Board ("IASB"). These financial statements were prepared using the same accounting policies, critical accounting judgements and estimates as applied in the Fund's most recent audited annual financial statements for the year ended March 31, 2024. A summary of the Fund's material accounting policies under IFRS is presented in Note 3.

These financial statements are presented in Canadian dollars, which is the Fund's functional and presentation currency, and rounded to the nearest thousand unless otherwise indicated. These financial statements are prepared on a going concern basis using the historical cost basis, except for financial instruments that have been measured at fair value.

These financial statements were authorized for issue by the Board of Directors of CLIML on November 8, 2024.

3. Material Accounting Policies

(a) Financial instruments

Financial instruments include financial assets and liabilities such as debt and equity securities, investment funds and derivatives. The Fund classifies and measures financial instruments in accordance with IFRS 9, *Financial Instruments*. Upon initial recognition, financial instruments are classified as fair value through profit or loss ("FVTPL"). All financial instruments are recognized in the Statement of Financial Position when the Fund becomes a party to the contractual requirements of the instrument. Financial assets are derecognized when the right to receive cash flows from the instrument has expired or the Fund has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when the obligation is discharged, cancelled or expires. Investment purchase and sale transactions are recorded as of the trade date.

Financial instruments are subsequently measured at FVTPL with changes in fair value recognized in the Statement of Comprehensive Income – Other changes in fair value of investments and other net assets – Net unrealized gain (loss).

The cost of investments is determined on a weighted average cost basis.

Realized and unrealized gains and losses on investments are calculated based on the weighted average cost of investments and exclude commissions and other portfolio transaction costs, which are separately reported in the Statement of Comprehensive Income – Commissions and other portfolio transaction costs.

Gains and losses arising from changes in the fair value of the investments are included in the Statement of Comprehensive Income for the period in which they arise.

The Fund accounts for its holdings in unlisted open-ended investment funds and exchange-traded funds, if any, at FVTPL.

The Fund's redeemable securities contain multiple dissimilar contractual obligations and entitle securityholders to the right to redeem their interest in the Fund for cash equal to their proportionate share of the net asset value of the Fund and therefore meet the criteria for classification as financial liabilities under IAS 32 *Financial Instruments: Presentation*. The Fund's obligation for net assets attributable to securityholders is presented at the redemption amount.

IAS 7, *Statement of Cash Flows*, requires disclosures related to changes in liabilities and assets, such as the securities of the Fund, arising from financing activities. Changes in securities of the Fund, including both changes from cash flows and non-cash changes, are included in the Statement of Changes in Financial Position. Any changes in the securities not settled in cash as at the end of the period are presented as either Accounts receivable for securities issued or Accounts payable for securities redeemed in the Statement of Financial Position. These accounts receivable and accounts payable amounts typically settle shortly after period-end.

(b) Fair value measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

3. Material Accounting Policies (cont'd)

(b) Fair value measurement (cont'd)

Investments listed on a public securities exchange or traded on an over-the-counter market, including ETFs, are valued on the basis of the last traded market price or closing price recorded by the security exchange on which the security is principally traded, where this price falls within the quoted bid-ask spread for the investment. In circumstances where this price is not within the bid-ask spread, CLIML determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. Mutual fund securities of an underlying fund are valued on a business day at the price calculated by the manager of such underlying fund in accordance with the constating documents of such underlying fund. Unlisted or non-exchange traded investments, or investments where a last sale or close price is unavailable or investments for which market quotations are, in CLIML's opinion, inaccurate, unreliable, or not reflective of all available material information, are valued at their fair value as determined by CLIML using appropriate and accepted industry valuation techniques including valuation models. The fair value determined using valuation models requires the use of inputs and assumptions based on observable market data including volatility and other applicable rates or prices. In limited circumstances, the fair value may be determined using valuation techniques that are not supported by observable market data.

Cash and cash equivalents which includes cash on deposit with financial institutions and short-term investments that are readily convertible to cash, are subject to an insignificant risk of changes in value, and are used by the Fund in the management of short-term commitments. Cash and cash equivalents and short-term investments are reported at fair value which closely approximates their amortized cost due to their nature of being highly liquid and having short terms to maturity. Bank overdraft positions are presented under current liabilities as bank indebtedness in the Statement of Financial Position. Short-term investments that are not considered cash equivalents are separately disclosed in the Schedule of Investments.

The Fund may use derivatives (such as written options, futures, forward contracts, swaps or customized derivatives) to hedge against losses caused by changes in securities prices, interest rates or exchange rates. The Fund may also use derivatives for non-hedging purposes in order to invest indirectly in securities or financial markets, to gain exposure to other currencies, to seek to generate additional income, and/or for any other purpose considered appropriate by the Fund's portfolio manager(s), provided that the use of the derivative is consistent with the Fund's investment objectives. Any use of derivatives will comply with Canadian mutual fund laws, subject to the regulatory exemptions granted to the Fund, as applicable. Refer to "Exemptions and Approvals" in the Simplified Prospectus of the Fund for further details, including the complete conditions of these exemptions, as applicable.

Valuations of derivative instruments are carried out daily, using normal exchange reporting sources for exchange-traded derivatives and specific broker enquiry for over-the-counter derivatives.

The value of forward contracts is the gain or loss that would be realized if, on the valuation date, the positions were to be closed out. The change in value of forward contracts is included in the Statement of Comprehensive Income – Other changes in fair value of investments and other net assets – Net unrealized gain (loss).

The daily fluctuation of futures contracts or swaps, along with daily cash settlements made by the Fund, where applicable, are equal to the change in unrealized gains or losses that are best determined at the settlement price. These unrealized gains or losses are recorded and reported as such until the Fund closes out the contract or the contract expires. Margin paid or deposited in respect of futures contracts or swaps is reflected as a receivable in the Statement of Financial Position – Margin on derivatives. Any change in the variation margin requirement is settled daily.

Premiums paid for purchasing an option are recorded in the Statement of Financial Position – Investments at fair value.

Premiums received from writing options are included in the Statement of Financial Position as a liability and subsequently adjusted daily to fair value. If a written option expires unexercised, the premium received is recognized as a realized gain. If a written call option is exercised, the difference between the proceeds of the sale plus the value of the premium, and the cost of the security is recognized as a realized gain or loss. If a written put option is exercised, the cost of the security acquired is the exercise price of the option less the premium received.

Refer to the Schedule of Derivative Instruments and Schedule of Options Purchased/Written, as applicable, included in the Schedule of Investments for a listing of derivative and options positions as at September 30, 2024.

The Fund categorizes the fair value of its assets and liabilities into three categories, which are differentiated based on the observable nature of the inputs and extent of estimation required.

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly. Examples of Level 2 valuations include quoted prices for similar securities, quoted prices on inactive markets and from recognized investment dealers, and the application of factors derived from observable data to non-North American quoted prices in order to estimate the impact of differences in market closing times.

Financial instruments classified as Level 2 investments are valued based on the prices provided by an independent reputable pricing services company who prices the securities based on recent transactions and quotes received from market participants and through incorporating observable market data and using standard market convention practices. Short-term investments classified as Level 2 investments are valued based on amortized cost plus accrued interest which closely approximates fair value.

The estimated fair values for these securities may be different from the values that would have been used had a ready market for the investment existed; and

Level 3 – Inputs that are not based on observable market data.

The inputs are considered observable if they are developed using market data, such as publicly available information about actual events or transactions, and that reflect the assumption that market participants would use when pricing the asset or liability.

See Note 10 for the fair value classifications of the Fund.

(c) Income recognition

Interest income for distribution purposes represents the coupon interest received by the Fund which is accounted for on an accrual basis. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds, which are amortized on a straight-line basis. Dividends are accrued as of the ex-dividend date. Unrealized gains or losses on investments, realized gains or losses on the sale of investments, including foreign exchange gains or losses on such investments, are calculated on a weighted average cost basis. Distributions received from an underlying fund are included in interest income, dividend income, realized gains (losses) on sale of investments or fee rebate income, as appropriate, on the ex-dividend or distribution date.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

3. Material Accounting Policies (cont'd)

(c) Income recognition (cont'd)

Income, realized gains (losses) and unrealized gains (losses) are allocated daily among the series on a pro-rata basis.

(d) Commissions and other portfolio transaction costs

Commissions and other portfolio transaction costs are costs incurred to acquire, issue or dispose of financial assets or liabilities. They include fees and commissions paid to agents, exchanges, brokers, dealers and other intermediaries. The total brokerage commissions incurred by the Fund in connection with portfolio transactions for the periods, together with other transaction charges, is disclosed in the Statements of Comprehensive Income. Brokerage business is allocated to brokers based on the best net result for the Fund. Subject to this criteria, commissions may be paid to brokerage firms which provide (or pay for) certain services, other than order execution, which may include investment research, analysis and reports, and databases or software in support of these services. Where applicable and ascertainable, the value of these services generated during the periods is disclosed in Note 10. The value of certain proprietary services provided by brokers cannot be reasonably estimated.

(e) Securities lending, repurchase and reverse repurchase transactions

The Fund is permitted to enter into securities lending, repurchase and reverse repurchase transactions as set out in the Fund's Simplified Prospectus. These transactions involve the temporary exchange of securities for collateral with a commitment to redeliver the same securities on a future date.

Income is earned from these transactions in the form of fees paid by the counterparty and, in certain circumstances, interest paid on cash or securities held as collateral. Income earned from these transactions is included in the Statement of Comprehensive Income and recognized when earned. Securities lending transactions are administered by The Canadian Imperial Bank of Commerce and The Bank of New York Mellon. The value of cash or securities held as collateral must be at least 102% of the fair value of the securities loaned, sold or purchased.

Note 10 summarizes the details of securities loaned and collateral received as at the end of period, as well as a reconciliation of securities lending income during the period, if applicable. Collateral received is comprised of debt obligations of the Government of Canada and other countries, Canadian provincial and municipal governments, and financial institutions.

(f) Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. In the normal course of business, the Fund enters into various master netting agreements or similar agreements that do not meet the criteria for offsetting in the Statement of Financial Position but still allow for the related amounts to be set off in certain circumstances, such as bankruptcy or termination of the contracts. Note 10 summarizes the details of such offsetting, if applicable, subject to master netting arrangements or other similar agreements and the net impact to the Statements of Financial Position if all such rights were exercised.

Income and expenses are not offset in the Statement of Comprehensive Income unless required or permitted to by an accounting standard, as specifically disclosed in the IFRS policies of the Fund.

(g) Currency

The functional and presentation currency of the Fund is Canadian dollars. Foreign currency purchases and sales of investments and foreign currency dividend and interest income and expenses are translated to Canadian dollars at the rate of exchange prevailing at the time of the transactions.

Foreign exchange gains (losses) on purchases and sales of foreign currencies are included in the Statement of Comprehensive Income – Other changes in fair value of investments and other net assets – Net realized gain (loss).

The fair value of investments and other assets and liabilities, denominated in foreign currencies, are translated to Canadian dollars at the rate of exchange prevailing on each business day.

(h) Net assets attributable to securityholders per security

Net assets attributable to securityholders per security is computed by dividing the net assets attributable to securityholders of a series of securities on a business day by the total number of securities of the series outstanding on that day.

(i) Net asset value per security

The daily Net Asset Value ("NAV") of an investment fund may be calculated without reference to IFRS as per the Canadian Securities Administrators' ("CSA") regulations. The difference between NAV and Net assets attributable to securityholders (as reported in the financial statements), if any, is mainly due to differences in fair value of investments and other financial assets and liabilities and is disclosed in Note 10, if applicable.

(j) Increase (decrease) in net assets attributable to securityholders from operations per security

Increase (decrease) in net assets attributable to securityholders from operations per security in the Statement of Comprehensive Income represents the increase (decrease) in net assets attributable to securityholders from operations for the period, divided by the weighted average number of securities outstanding during the period.

(k) Mergers

In a fund merger, the Fund acquires all of the assets and assumes all of the liabilities of the terminating fund at fair value in exchange for securities of the Fund on the effective date of the merger.

(l) Future accounting changes

The Fund has determined there are no material implications to the Fund's financial statements arising from IFRS issued but not yet effective.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

4. Critical Accounting Estimates and Judgments

The preparation of these financial statements requires management to make estimates and assumptions that primarily affect the valuation of investments. Estimates and assumptions are reviewed on an ongoing basis. Actual results may differ from these estimates.

The following discusses the most significant accounting judgments and estimates made in preparing the financial statements:

Use of Estimates

Fair value of securities not quoted in an active market

The Fund may hold financial instruments that are not quoted in active markets and are valued using valuation techniques that make use of observable data, to the extent practicable. Various valuation techniques are utilized, depending on a number of factors, including comparison with similar instruments for which observable market prices exist and recent arm's length market transactions. Key inputs and assumptions used are company specific and may include estimated discount rates and expected price volatilities. Changes in key inputs, could affect the reported fair value of these financial instruments held by the Fund.

Use of Judgments

Classification and measurement of investments

In classifying and measuring financial instruments held by the Fund, CLIML is required to make significant judgments in order to determine the most appropriate classification in accordance with IFRS 9. CLIML has assessed the Fund's business model, the manner in which all financial instruments are managed and performance evaluated as a group on a fair value basis, and concluded that FVTPL in accordance with IFRS 9 provides the most appropriate measurement and presentation of the Fund's financial instruments.

Functional currency

The Fund's functional and presentation currency is the Canadian dollar, which is the currency considered to best represent the economic effects of the Fund's underlying transactions, events and conditions taking into consideration the manner in which securities are issued and redeemed and how returns and performance by the Fund are measured.

Interest in unconsolidated structured entities

In determining whether an unlisted open-ended investment fund or an exchange-traded fund in which the Fund invests ("Underlying Funds"), but that it does not consolidate, meets the definition of a structured entity, CLIML is required to make significant judgments about whether these underlying funds have the typical characteristics of a structured entity. These Underlying Funds do meet the definition of a structured entity because:

- I. The voting rights in the Underlying Funds are not dominant factors in deciding who controls them;
- II. the activities of the Underlying Funds are restricted by their offering documents; and
- III. the Underlying Funds have narrow and well-defined investment objectives to provide investment opportunities for investors while passing on the associated risks and rewards.

As a result, such investments are accounted for at FVTPL. Note 10 summarizes the details of the Fund's interest in these Underlying Funds, if applicable.

5. Income Taxes

The Fund qualifies as a mutual fund trust under the provisions of the Income Tax Act (Canada) and, accordingly, is subject to tax on its income including net realized capital gains in the taxation year, which is not paid or payable to its securityholders as at the end of the taxation year. The Fund maintains a December year-end for tax purposes. The Fund may be subject to withholding taxes on foreign income. In general, the Fund treats withholding tax as a charge against income for tax purposes. The Fund will distribute sufficient amounts from net income for tax purposes, as required, so that the Fund will not pay income taxes other than refundable tax on capital gains, if applicable.

Losses of the Fund cannot be allocated to investors and are retained in the Fund for use in future years. Non-capital losses may be carried forward up to 20 years to reduce taxable income and realized capital gains of future years. Capital losses may be carried forward indefinitely to reduce future realized capital gains. Refer to Note 10 for the Fund's loss carryforwards.

6. Management Fees and Operating Expenses

The management fees were used by CLIML for managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements relating to the purchase and sale of the investment portfolio and making arrangements with registered dealers for the purchase and sale of securities of the Fund by investors. The management fee is calculated on each series of securities of the Fund as a fixed annual percentage of the daily net asset value of the series.

CLIML pays the administration fee to Mackenzie for providing day-to-day administration services, including, financial reporting, communications to investors and securityholder reporting, maintaining the books and records of the Fund, NAV calculations, and processing orders for securities of the Funds. In addition, Mackenzie pays all costs and expenses (other than certain specified fund costs) required to operate the Fund that are not included in the management fee. The Administration Fee is calculated on each series of securities of the Fund as a fixed annual percentage of the daily net asset value of the series.

Other fund costs include taxes (including, but not limited to GST/HST and income tax), interest and borrowing costs, all fees and expenses of the CLIML Funds' Independent Review Committee ("IRC"), costs of complying with the regulatory requirement to produce Fund Facts, fees paid to external service providers associated with tax reclaims, refunds or the preparation of foreign tax reports on behalf of the Funds, new fees related to external services that were not commonly charged in the Canadian mutual fund industry and introduced after the date of the most recently filed simplified prospectus, and the costs of complying with any new regulatory requirements, including, without limitation, any new fees introduced after the date of the most recently filed simplified prospectus.

CLIML may waive or absorb management fees and/or Administration Fees at its discretion and stop waiving or absorbing such fees at any time without notice. Refer to Note 10 for the management fee and Administration Fee rates charged to each series of securities.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

7. Fund's Capital

The capital of the Fund, which is comprised of the net assets attributable to securityholders, is divided into different series with each series having an unlimited number of securities. The securities outstanding for the Fund as at September 30, 2024 and 2023 and securities issued, reinvested and redeemed for the periods are presented in the Statement of Changes in Financial Position. CLIML manages the capital of the Fund in accordance with the investment objectives as discussed in Note 10.

8. Financial Instruments Risk

i. Risk exposure and management

The Fund's investment activities expose it to a variety of financial risks, as defined in IFRS 7, *Financial Instruments: Disclosures*. The Fund's exposure to financial risks is concentrated in its investments, which are presented in the Schedule of Investments, as at September 30, 2024, grouped by asset type, with geographic and sector information.

CLIML seeks to minimize potential adverse effects of financial risks on the Fund's performance by employing professional, experienced portfolio advisors, by monitoring the Fund's positions and market events daily, by diversifying the investment portfolio within the constraints of the Fund's investment objectives, and where applicable, by using derivatives to hedge certain risk exposures. To assist in managing risks, CLIML also maintains a governance structure that oversees the Fund's investment activities and monitors compliance with the Fund's stated investment strategy, internal guidelines, and securities regulations.

ii. Liquidity risk

Liquidity risk arises when the Fund encounters difficulty in meeting its financial obligations as they become due. The Fund is exposed to liquidity risk due to potential daily cash redemptions of redeemable securities. In order to monitor the liquidity of its assets, the Fund utilizes a liquidity risk management program that calculates the number of days to convert the investments held by the Fund into cash using a multi-day liquidation approach. This liquidity risk analysis assesses the Fund's liquidity against predetermined minimum liquidity percentages established for different time periods and is monitored quarterly. In addition, the Fund has the ability to borrow up to 5% of its net assets for the purposes of funding redemptions.

In order to comply with securities regulations, the Fund must maintain at least 85% of its assets in liquid investments (i.e., investments that can be readily sold).

iii. Currency risk

Currency risk is the risk that financial instruments which are denominated or exchanged in a currency other than the Canadian dollar, which is the Fund's functional currency, will fluctuate due to changes in exchange rates. Generally, foreign denominated investments increase in value when the value of the Canadian dollar (relative to foreign currencies) falls. Conversely, when the value of the Canadian dollar rises relative to foreign currencies, the values of foreign denominated investments fall.

Note 10 indicates the foreign currencies, if applicable, to which the Fund had significant exposure, including both monetary and non-monetary financial instruments, and illustrates the potential impact, in Canadian dollar terms, to the Fund's net assets had the Canadian dollar strengthened or weakened by 5% relative to all foreign currencies, all other variables held constant. In practice, the actual trading results may differ and the difference could be material.

The Fund's sensitivity to currency risk illustrated in Note 10 includes potential indirect impacts from underlying funds and Exchange Traded Funds ("ETFs") in which the Fund invests, and/or derivative contracts including forward currency contracts. Other financial assets and liabilities (including dividends and interest receivable, and receivables/payables for investments sold/purchased) that are denominated in foreign currencies do not expose the Fund to significant currency risk.

iv. Interest rate risk

Interest rate risk arises on interest-bearing financial instruments. The Fund is exposed to the risk that the value of interest-bearing financial instruments will fluctuate due to changes in the prevailing levels of market interest rates. Generally, these securities increase in value when interest rates fall and decrease in value when interest rates rise.

If significant, Note 10 summarizes the Fund's interest-bearing financial instruments by remaining term to maturity and illustrates the potential impact to the Fund's net assets had prevailing interest rates increased or decreased by 1%, assuming a parallel shift in the yield curve, all other variables held constant. The Fund's sensitivity to interest rate changes was estimated using weighted average duration. In practice, the actual trading results may differ and the difference could be material.

The Fund's sensitivity to interest rate risk illustrated in Note 10 includes potential indirect impacts from underlying funds and ETFs in which the Fund invests, and/or derivative contracts. Cash and cash equivalents and other money market instruments are short term in nature and are not generally subject to significant amounts of interest rate risk.

v. Other price risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All investments present a risk of loss of capital. This risk is managed through a careful selection of investments and other financial instruments within the parameters of the investment strategies. Except for certain derivative contracts, the maximum risk resulting from financial instruments is equivalent to their fair value. The maximum risk of loss on certain derivative contracts such as forwards, swaps, and futures contracts is equal to their notional values. In the case of written call (put) options and short futures contracts, the loss to the Fund continues to increase, theoretically without limit, as the fair value of the underlying interest increases (decreases). However, these instruments are generally used within the overall investment management process to manage the risk from the underlying investments and do not typically increase the overall risk of loss to the Fund. This risk is mitigated by ensuring that the Fund holds a combination of the underlying interest, cash cover and/or margin that is equal to or greater than the value of the derivative contract.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

8. Financial Instruments Risk (cont'd)

v. Other price risk (cont'd)

Other price risk typically arises from exposure to equity and commodity securities. If significant, Note 10 illustrates the potential increase or decrease in the Fund's net assets, had the prices on the respective exchanges for these securities increased or decreased by 10%, all other variables held constant. In practice, the actual trading results may differ and the difference could be material.

The Fund's sensitivity to other price risk illustrated in Note 10 includes potential indirect impacts from underlying funds and ETFs in which the Fund invests, and/or derivative contracts.

vi. Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. Note 10 summarizes the Fund's exposure, if applicable and significant, to credit risk.

If presented, credit ratings and rating categories are based on ratings issued by a designated rating organization. Indirect exposure to credit risk may arise from fixed-income securities, such as bonds, held by underlying funds and ETFs, if any. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer.

To minimize the possibility of settlement default, securities are exchanged for payment simultaneously, where market practices permit, through the facilities of a central depository and/or clearing agency where customary.

The carrying amount of investments and other assets represents the maximum credit risk exposure as at the date of the Statement of Financial Position. The Fund may enter into securities lending transactions with counterparties and it may also be exposed to credit risk from the counterparties to the derivative instruments it may use. Credit risk associated with these transactions is considered minimal as all counterparties have a rating equivalent to a designated rating organization's credit rating of not less than A-1 (low) on their short-term debt and of A on their long-term debt, as applicable.

vii. Underlying funds

The Fund may invest in underlying funds and may be indirectly exposed to currency risk, interest rate risk, other price risk and credit risk from fluctuations in the value of financial instruments held by the underlying funds. Note 10 summarizes the Fund's exposure, if applicable and significant, to these risks from underlying funds.

9. Other Information

Abbreviations

Foreign currencies, if any, are presented in these financial statements using the following abbreviated currency codes:

Currency Code	Description	Currency Code	Description	Currency Code	Description
AUD	Australian dollars	HUF	Hungarian forint	PLN	Polish zloty
AED	United Arab Emirates Dirham	IDR	Indonesian rupiah	QAR	Qatar Rial

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

10. Fund Specific Information (in '000, except for (a))

(a) Fund Formation and Series Information

Date of Formation: October 15, 1986

The Fund may issue an unlimited number of securities of each series. The number of issued and outstanding securities of each series is disclosed in the Statements of Changes in Financial Position.

A Series securities are offered to investors investing a minimum of \$500.

F Series securities are offered to investors investing a minimum of \$500, who are enrolled in a fee-for-service or wrap program sponsored by a Principal Distributor and who are subject to an asset-based fee.

I Series securities are offered to investors investing a minimum of \$25,000, who are participating in the Canada Life Constellation Managed Portfolios Program, and who have entered into an I Series Account Agreement with CLIML and Quadrus which specifies the fees applicable to this account.

N Series securities are offered to investors investing a minimum of \$500, who have eligible minimum total holdings of \$500,000, and who have entered into an N Series Account Agreement with CLIML and a Principal Distributor.

QF Series securities are offered to retail investors investing a minimum of \$500. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their advisor.

QFW Series securities are offered to high net worth investors investing a minimum of \$500 who have eligible minimum total holdings of \$500,000. Investors are required to negotiate their advisor service fee, which cannot exceed 1.25%, with their advisor.

Series R securities are offered only to other funds managed by CLIML on a non-prospectus basis in connection with fund-of-fund arrangements.

RB Series securities are offered to retail investors investing a minimum of \$500 who participate in the Canada Life Mutual Funds Rebalancing Service.

Series S securities are offered to The Canada Life Assurance Company and certain other mutual funds, but may be sold to other investors as determined by CLIML.

W Series securities are offered to investors investing a minimum of \$500 who have eligible minimum total holdings of \$500,000.

GR Series and Premium Series securities are no longer available for sale.

An investor in the Fund may choose among different purchase options that are available under each series. These purchase options are a sales charge purchase option, a redemption charge purchase option,[†] a low-load purchase option[†] and a no-load purchase option. The charges under the sales charge purchase option are negotiated by investors with their dealers. The charges under the redemption charge and low-load purchase options are paid to CLIML if an investor redeems securities of the Fund during specific periods. Not all purchase options are available under each series of the Fund, and the charges for each purchase option may vary among the different series. For further details on these purchase options, please refer to the Fund's Simplified Prospectus and Fund Facts.

Series	Inception/ Reinstatement Date	Management Fee	Administration Fee
A Series	October 15, 1986	0.60% ⁽³⁾	0.10%
F Series	February 28, 2001	0.25% ⁽³⁾	0.10%
GR Series	October 15, 1986	0.60% ⁽³⁾	0.10%
I Series	February 1, 2023	— ⁽¹⁾	— ⁽¹⁾
N Series	December 8, 2011	— ⁽¹⁾	— ⁽¹⁾
Premium Series	August 19, 2002	0.55%	0.05%
QF Series	July 12, 2016	0.35% ⁽³⁾	0.10%
QFW Series	August 7, 2018	0.25% ⁽³⁾	0.15%
Series R	April 25, 2023	n/a	n/a
RB Series	March 6, 2017	0.60% ⁽³⁾	0.10%
Series S	October 24, 2008	— ⁽²⁾	0.015%
W Series	December 14, 2011	0.50% ⁽³⁾	0.15%

[†] The redemption charge purchase option and the low-load purchase option are no longer available for purchase, including those made through systematic purchase plans such as pre-authorized contribution plans. Switching from securities of a Canada Life Fund previously purchased under the redemption charge or low-load purchase options to securities of another Canada Life Fund, under the same purchase option, will continue to be available.

(1) This fee is negotiable and payable directly to CLIML by investors in this series through redemptions of their securities.

(2) This fee is negotiable and payable directly to CLIML by investors in this series.

(3) Prior to November 9, 2023, the management fees were charged to the Fund at the rates of 0.75% for A Series, GR Series and RB Series; 0.35% for F Series and QFW Series; 0.50% for QF Series and 0.60% for W Series.

b) Tax Loss Carryforwards

As at the last taxation year-end, there were no capital and non-capital losses available to carry forward for tax purposes.

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

Securities lending income	1	100.0	–	–

(d) Commissions

For the periods ended September 30, 2024 and 2023, commissions paid by the Fund did not generate any third-party services that were provided or paid for by brokers.

(e) Risks Associated with Financial Instruments

i. Risk exposure and management

The Fund seeks to maximize income, while preserving capital and maintaining liquidity, by investing primarily in Canadian money market securities. The Fund seeks to maintain a constant net asset value of \$10 per security. It may hold up to 30% of its assets in foreign investments.

ii. Currency risk

As at September 30, 2024 and March 31, 2024, the Fund did not have a significant exposure to currency risk.

iii. Interest rate risk

As at September 30, 2024 and March 31, 2024, the Fund did not have a significant exposure to interest rate risk.

iv. Other price risk

As at September 30, 2024 and March 31, 2024, the Fund did not have a significant exposure to other price risk.

v. Credit risk

The Fund's greatest concentration of credit risk is in debt securities, such as bonds and short-term notes. The fair value of debt securities includes consideration of the creditworthiness of the debt issuer. The maximum exposure to any one debt issuer as at September 30, 2024, was 11.2% of the net assets of the Fund (March 31, 2024 – 20.5%).

As at September 30, 2024 and March 31, 2024, debt securities by credit rating are as follows:

	September 30, 2024	March 31, 2024
Bond Rating*	% of Net Assets	% of Net Assets
AAA	1.8	2.2
AA	1.4	3.2
A	28.3	32.2
Unrated	20.9	12.8
Total	52.4	50.4

v. Credit risk (cont'd)

	September 30, 2024	March 31, 2024
Short-Term Note Rating*	% of Net Assets	% of Net Assets
R1 (High)	16.6	19.6
R1 (Mid)	13.5	14.2
R1 (Low)	17.4	17.9
Total	47.5	51.7

* Credit ratings and rating categories are based on ratings issued by a designated rating organization

CANADA LIFE MONEY MARKET FUND

INTERIM UNAUDITED FINANCIAL STATEMENTS | September 30, 2024

NOTES TO FINANCIAL STATEMENTS

10. Fund Specific Information (in '000, except for (a)) (cont'd)

(f) Fair Value Classification

The table below summarizes the fair value of the Fund's financial instruments using the fair value hierarchy described in note 3.

	September 30, 2024				March 31, 2024			
	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Total (\$)	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Total (\$)
Bonds	–	85,266	–	85,266	–	86,271	–	86,271
Short-term investments	–	77,228	–	77,228	–	88,498	–	88,498
Total	–	162,494	–	162,494	–	174,769	–	174,769

The Fund's policy is to recognize transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer.

During the periods, there were no transfers between Level 1 and Level 2.

(g) Investments by the Manager and Affiliates

The investments held by the Manager, other funds managed by the Manager, and funds managed by affiliates of the Manager, investing in series S of the Fund, as applicable (as described in *Fund Formation and Series Information* in note 10), were as follows:

	September 30, 2024	March 31, 2024
	(\$)	(\$)
The Manager	71	71
Other funds managed by the Manager	3,143	2,842
Funds managed by affiliates of the Manager	1,851	2,012

(h) Offsetting of Financial Assets and Liabilities

As at September 30, 2024 and March 31, 2024, there were no amounts subject to offsetting.

(i) Interest in Unconsolidated Structured Entities

As at September 30, 2024 and March 31, 2024, the Fund had no investments in Underlying Funds.
